# Dental Treat

## Recipe Claims

### Added Natural Green Tea extract

Natural green tea extract has been added which is thought to **help** in controlling the bacteria which may contribute to poor oral health.

### Contains Activated Charcoal

To **help** maintain white teeth and combat bad breath.

### Contains Peppermint

To naturally **help** neutralise bad breath.

### Contains Sodium Hexametaphosphate

This **helps** to protect against the build up of tartar by absorbing minerals required for tartar formation. Commonly found in whitening toothpastes.

### Kibble Crunch

Bone-shaped kibble with crunch for oral **care**.

### Added Vitamins & Minerals

Added Vitamins & Minerals which are **essential** for a pet's overall health.
